WORK EXPERIENCE

Amentum| Dahlgren, VA **April 2026-Present**
Junior Software Engineer
- Working as a software engineer at Naval Surface Warfare Center Dahlgren Division (NSWCDD) through Amentum.

Spectrum| Greenwood Village, CO **November 2025 - April 2026**
Software Engineer I
- Created and maintained internal web tools using Flask, Spring Boot, JS, and several API connections.
- Created automation scripts in Python to assist with the web tools and data processing requests.
- Worked as a release manager responsible for coordinating code deployments and ensuring smooth releases.

Liberty Media Corporation| Centennial, CO **June 2024- September 2024**
Integrated Technology Intern
- Automated system configurations using Python scripts, reducing manual tasks by 40%.
- Assisted in cybersecurity protocols for VoIP, mobile, and printer/MFP OS platforms, resolving 30+ user tickets.
- Conducted vulnerability assessments with Hashcat, identifying 15+ weak passwords and proposing SHA-256 migration.

BLAST Labs| Boulder, CO **January 2024-August 2024**
Research Assistant for Interactive Coding Systems
- Co-authored a publication on asynchronous vs. synchronous coding workflows for LLM training.
- Utilized Agile/Scrum workflows to streamline code deployment and testing.
- **Published Work:** PDF

EDUCATION

University of Colorado Boulder | Boulder, CO **August 2022**
Completed B.A. in Computer Science, Completed Minor in Business; GPA: 3.4 **Graduation May 2025**

Honors:
- First Place Business Minor Capstone Competition **2024**
- President Horace M. Hale Award **2022**
- University of Colorado Boulder Esteemed Scholar **2022**

Prior Studies:
- University of Colorado Denver **Dual Enrollment, 2021–2022**
- Arapahoe Community College **Concurrent Enrollment, 2018–2021**
- STEM School Highlands Ranch High School **2018–2022**

TECHNICAL SKILLS

Software Engineering:
- Python, C++, C, Java, TypeScript, OOP, REST APIs, Agile/Scrum, Unit Testing (Jest, PyTest), CI/CD

Cybersecurity:
- Hashcat, Vulnerability Assessment, Firewall Configuration, SIEM Tools, Linux Administration, iptables, Security Hardening

Networking:
- TCP/IP, VPNs, Network Troubleshooting, Cisco CLI, Routing Protocols, DNS, DHCP, VLANs, Packet Analysis

Systems & Network Engineering:
- Linux Kernel Configuration, Systemd, Bash Scripting, Load Balancing, RAID, NFS, iSCSI, PXE Boot, Kernel Module Debugging, Performance Tuning (top, htop, sysctl, vmstat)

Tools:
- Docker, Git, AWS (EC2, S3), Wireshark, Anaconda, Jenkins, Postman, Nagios, Zabbix, Netcat, tmux, iperf

Web Development:
- HTML, CSS, JavaScript/TypeScript, EJS, Node.js, React, SQL

PROJECTS

Sunset Ranker **2025**
- REPO: https://github.com/MaksimSeniw/SunsetRan
- Skills Used: OOP, SQL, CSS, EJS, JS, HTML, Node.js, Routing

HatHub **2023**
- REPO: https://github.com/MaksimSeniw/HatHub
- Skills Used: EJS, SQL, Node.js, Routing, Docker, JavaScript, CSS, Mailjet, Git

Personal Website **2023-2024**
- REPO: https://github.com/MaksimSeniw/Website_Resume
- Skills Used: Node.js, Routing, EJS, JavaScript, CSS, Google Appspot, Git

CERTIFICATIONS

Goldman Sachs Software Engineering Virtual Experience Program **June 2024**
J.P. Morgan Software Engineering Virtual Experience **May 2024**
